

Arthurs Seat Risk Assessment SEP26

UOE Jet Lag

September 2026

1 Introduction

This event is run by a Hillwalker who knows the route well and has attempted in difficult decisions

We will always observe the Scottish Outdoor Access Code.

If you do the same activity on more than one occasion, you can re-purpose a previous risk assessment if nothing significant has changed. Any risk assessment you use for repeated activities should be reviewed when things change and refreshed every 12 months.

5 Reporting Incidents

All accidents, near misses and dangerous occurrences should be reported to the Students' Association.

- Report accidents and dangerous occurrences within 24 hours.
- Report near misses within 5 working days.

You can report using our online Incident Reporting Form. We may contact you for a bit more information. And because these situations can be stressful, we may be in touch to see if anybody needs any follow-up support. Remember, we're here to help.

5.1 If you need immediate help

- In the case of an emergency where there is a risk to life, call **999** immediately.
- In a medical incident that is not life threatening, call **111** for advice.
- In other incidents remedial action by someone in your group, or by other people close by (e.g., venue staff; a qualified first aider) may be sufficient.

5.2 More information and support

More information on managing risk, including our Incident Reporting Form can be found at the Resource Hub.

Contact us at studentriskmanagement@eusa.ed.ac.uk for more guidance and support.
